Herewith a copy of **PA SITE - An Archaeological Simulation** as ordered.

Please note that the "B" side of the Data Disk contains a giveaway pair of Drills on parts of the Whare whakairo, and not a blank Data Disk as stated in the Teachers Manual. To make a further blank Data Disk just copy the current Data Disk & delete the 2 existing Digs.

The purchasing school has been programmed as: **PALMERSTON NORTH**

Please do not hesitate to contact me if there are any problems with the program.
